

# Mother-Led MUAC Toolbox for Implementation

April 2017

- Developed during project implementation in Mauritania
- Available in English and French
- For adaptation to country context

## Content of toolbox

- Qualitative and Quantitative tools for baseline and endline
- Monthly reporting format for facilitators
- Community monitoring tool:
  - Training of mothers
  - Mother reached – by district, by CHW
- Monitoring tool for health facility
- Example summary of approach to share with project stakeholders
- PowerPoint presentation on approach to training staff
