AFTER AUGUST 2021

Situation Update

Since the change in administration on August 15, 2021, Afghanistan's situation remains highly uncertain. While overall violence has decreased, an estimated 6.3 million people are internally displaced, the largest number in South Asia and the second largest worldwide. Furthermore, Afghanistan remains the only country in the world where girls and women are barred from education beyond grade six, depriving 1.4 million girls of secondary education. Moreover, women are restricted from working with NGOs and UN agencies.

These issues, compounded by decades of conflict, COVID-19, unemployment, forced returns from Pakistan and Iran, climate shocks such as drought and

World Vision

AFGHANISTAN

seasonal floods and natural disasters such as earthquakes, have led the country to the world's worst humanitarian crisis. An estimated 23.7 million people need humanitarian assistance, the third highest number of people in need globally, in 2024.

Given the significant shift in the scale of the complex humanitarian crisis in Afghanistan, on Aug 23, 2021, World Vision upgraded its Category III Afghanistan Hunger Crisis National Response to the Category III Global Response – Afghanistan Complex Emergency Response (ACER). Later World Vision declared Afghanistan a Category III Sustained Humanitarian Response (ASHR) on Aug 8, 2023. The organisation aims to improve the well-being of 2.1 million of the most vulnerable children in Herat, Badghis, Ghor and Faryab provinces, aligning outcomes with the Sustainable Development Goals and the Afghanistan Humanitarian Response Plan.

- 23.7M people need Humanitarian assistance

- 12.4M people facing acute hunger between May & Oct 2024
- **3M children** are facing acute malnutrition
- 44.7% children are experiencing stunting
- 1 in 4 Afghans are uncertain where their next meal will come from
- **275,000 people** affected by the Herat Earthquake
- 665,000 people returned from Pakistan
- **500,000 people** affected by recent floods
- **75% population** affected by drought
